

Platinum[®]

CARDIO COLLECTION

PLATINUM

Meet the Tunturi Platinum collection, where excellence meets versatility.

The line boasts commercial-grade fitness equipment pieces designed for demanding users seeking the pinnacle of performance.

Whether you're a home enthusiast, hotelier, or physiotherapy professional, our high-end, modern, and sleek designs deliver robust, sturdy equipment in striking black finishes.

Experience ultimate comfort as you train with our Platinum Collection, designed to elevate every workout with ergonomic precision and luxury.

Elevate your fitness experience with Tunturi Platinum, where superior craftsmanship meets unparalleled functionality.

Explore the range and redefine your workout space with the best of the best.

U20 UPRIGHT BIKE

SAFE AND SECURE WORKOUTS

The U20 has a magnetic brake system with a gradual build-up of resistance, up to a maximum of 450 W. Ideal for light and intermediate training, rehabilitation and physiotherapy.

BLUETOOTH AI MONITOR

7 inch LED/LCD backlight color display with 48 resistance levels, 26 programs, 4 intuitive control buttons, aluminium dial, tablet holder and silver LED beam. The 4 major parameters are not blocked from sight when a tablet is placed.

S10 SPRINTER BIKE

TOP OF THE CLASS

The S10 is a high-end sprinter bike with fast manual resistance adjustment, ideal for fitness group classes.

- Race seat on a universal system
- Multi-grip handlebar with anti slip coating, horizontally and vertically adjustable
- Adjustable LCD monochrome display with smartphone / tablet holder
- Bottle holder
- Horizontal seat adjustment with quick lever and indicator
- Vertical seat adjustment with body height indicator
- 32 resistance levels, manually adjustable
- Double-sided pedals: normal and SPD
- V-shaped base for extra stability
- Transport wheels

BLUETOOTH LCD MONITOR

80 x 50 mm LCD monochrome display with 6 programs. The monitor shows resistance level (1-32), watt, RPM, speed, pulse, time, distance, calories and scan.

C20 ELLIPTICAL

STABILITY AND INTENSITY

The C20 is a powerhouse elliptical, suitable for light and intense workouts, with a wide wattage range, double rail system, long stride length and small Q-factor

Integrated heart rate sensors and resistance level shortcut keys

Multi-grip handles with anti slip coating, heart rate sensors and shortcut keys to adjust the speed

Fully adjustable Bluetooth AI monitor with silver LED beam

Long stride length (51 cm / 20 inch) that perfectly mimics the running motion.

Bottle holder

Small Q-factor (13 cm / 5 inch) for the most natural movement

Wide wattage range between 35 and 400 W

Double rail system for extra stability and better weight distribution

Transport wheels

R30W BY FLUID ROWING MACHINE

ROWING AS IF YOU ARE ON THE WATER

Rowing with the R30W sounds, feels and looks like you are on the water thanks to the high-quality water tank with patented Twin Tank technology. This unique system lets you adjust the resistance of the water using the dial.

Ergonomic, non-slip and extra-high seat for ultimate comfort

Premium ergonomic handle for a correct posture

Bluetooth monitor with real-time rowing stroke display

Extra thick, sturdy one-piece bent steel tank frame

Patented XL Twin Tank with 10 resistance levels

Dual rail for extra stability

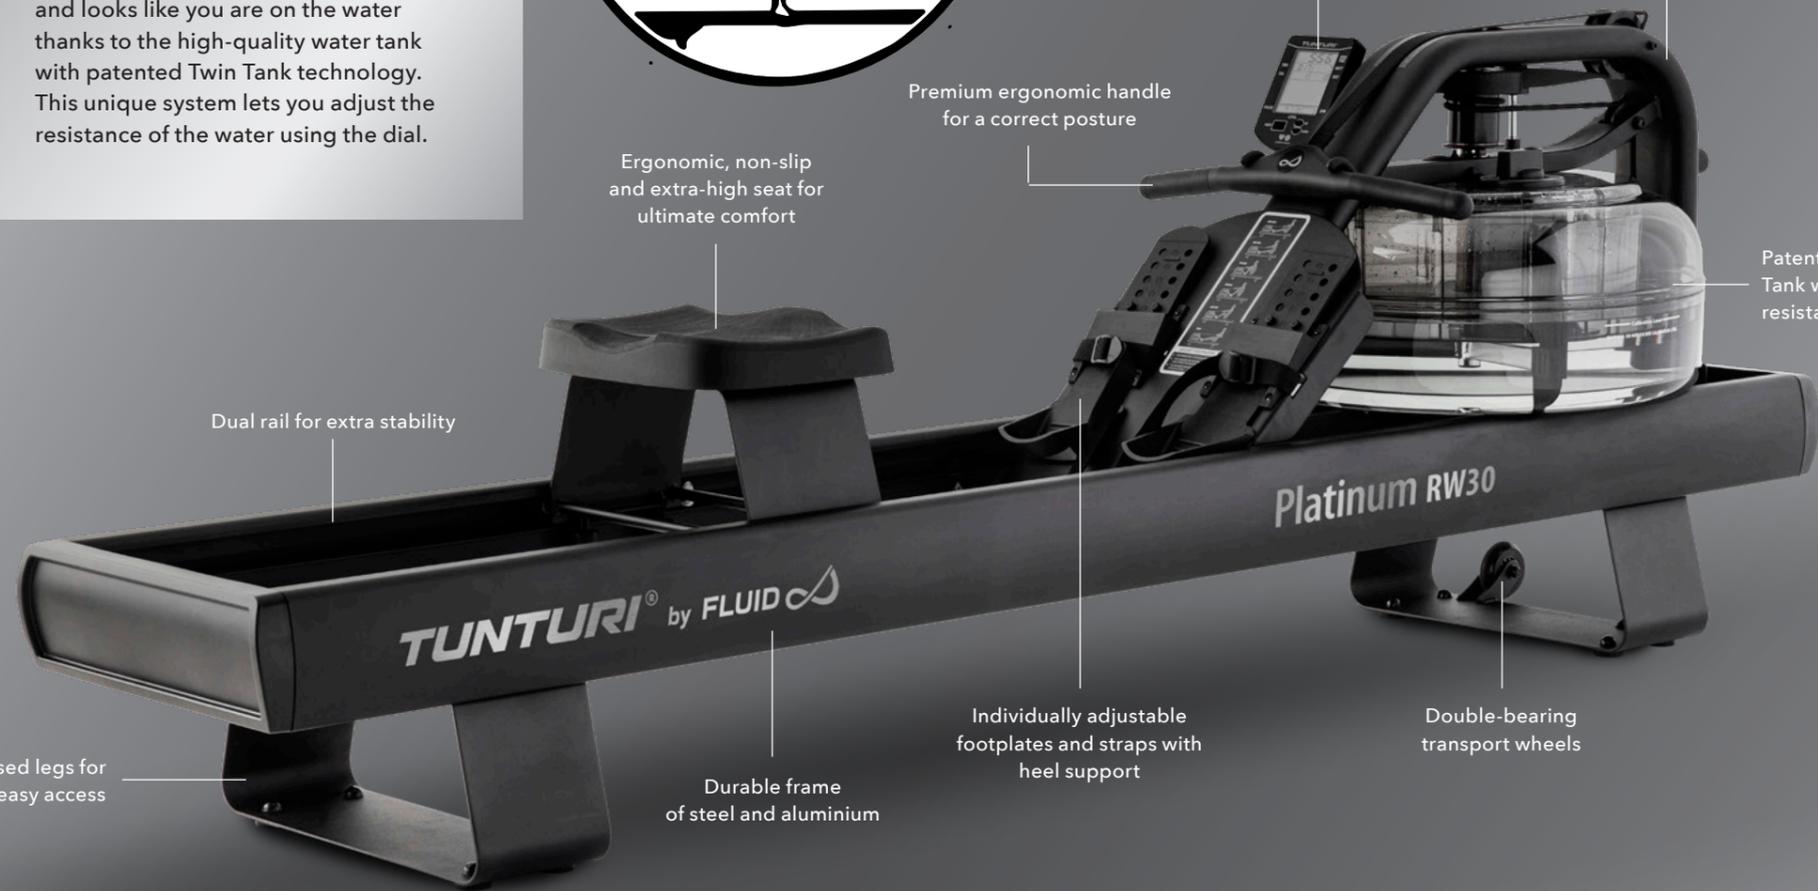

TUNTURI by FLUID

Durable frame of steel and aluminium

Individually adjustable footplates and straps with heel support

Double-bearing transport wheels

Raised legs for easy access

BLUETOOTH LCD MONITOR

Provides real-time insight into rowing metrics like time, watts, calories, distance, and strokes per minute. It automatically displays the selected resistance level and connects to apps via Bluetooth. The Power Graph shows your rowing stroke in real time, helping you perfect your technique.

T20 TREADMILL

MAXIMUM RESULT, MINIMUM IMPACT

Robust treadmill for regular and intensive use with features for maximum training results and minimal impact on knees and joints

10 inch LCD display with training parameters, tablet holder and direct Bluetooth connection

Extra control panel

Firm and soft side supports

Powerful, quiet and maintenance-free AC motor (4 HP)

Extra wide and long running surface (155 x 56 cm)

Side landings made of strong and durable aluminium

Heavy transport wheels

Extra thick 2.2 mm diamond running mat.

6-piece cushioning system minimises the impact on knees and joints

BLUETOOTH LED/LCD MONITOR

10 inch LED/LCD backlight color display with control buttons for speed and incline and an overview of all parameters. Time, heart rate, calories and speed are not blocked from sight when a tablet is placed.

T30

CORE TREADMILL

ONE OF A KIND

The T30 is a unique, all-in-1 treadmill with power sled training, running and rehabilitation on one machine. It's perfectly suited for all professional and commercial environments.

LED info display with text and graphics

Core bar for sled pushes and pulls

REHA rail over the full length of the treadmill

integrated heart rate sensors

Bungee resistance bands for extra sled resistance

Orthopedic running mat

Rings for optional resistance bands

Non-slip step supports

BLUETOOTH LED MONITOR

The TR30 has a Bluetooth LED monitor with text and graphics display. Below the monitor are 3 extra control panels: one beneath the monitor for swift program selection and two panels for quick speed /incline / sled adjustments.

UNIQUE FEATURES

RUNNING

POWER SLED TRAINING

REHABILITATION

(POWER) SLED TRAINING

Use the core bar at the front of the treadmill to push, or - if walking backwards - pull. The core bar has two positions, loose and fixed, that can be set with the 'pop pin'. The resistance can be adjusted from 1 - 100%. For an extra challenge, attach the bungee resistance bands.

STRENGTH TEST

Train for 30, 60, 90 or 120 seconds at 100% resistance. The treadmill measures and displays how much power - shown in wattage - is exerted, along with the covered distance. This unique feature makes the machine very suitable for HIIT and Cross Fit workouts.

LIMIT MODE

Special program with a unique starting speed of 0.1 km/h and a maximum speed of 2.5 km/h. The monitor displays the distance covered per meter, instead of the usual 100 meters. This provides extremely accurate training data for both light and heavy rehabilitation training.

BACKWARD WALKING

Special program with the same range as the limit mode (a speed of 0.1 to 2.5 km/h), with the running mat literally moving in the other direction. Walking backwards is a good physiotherapy exercise, which can be combined with an incline to walk downhill instead of uphill.
